

# Mulihull Show Coming to La Grande-Motte

**A**fter a year without boat shows, 2021 proved to be a blockbuster summer and fall for events around the globe, and the International Mulihull Show is looking to continue that trend in 2022.

First held in 2010, the show, which takes place in La Grande-Motte, France, on the shores of the Mediterranean, is about one thing and one thing only—multihulls, in all their forms.

Since its inception, the show has served as a showcase for the latest in multihull design, and the 2022 event, which takes place April 20-24, looks to be no different, with a number of debuts already planned, including those by C-Cat, Bali and Catana.

The event also provides the perfect venue for multihull aficionados from around the world to compare and share ideas—the more cutting edge, the better. With this in mind, the 2022 show will include what organizers are

The multihull world will gather again in La Grande-Motte

calling a “Multihull Club Design” area, showcasing the latest in multihull innovation. The show will also play host to a range of equipment suppliers exhibiting everything from deck hardware to sails, engines and services. As in year’s past, the event is expected to draw

exhibitors and visitors from around the world, making it an international affair in the truest sense of the word—a gathering of the multihull tribes not to be missed.
